Our Services

MPS Parking is firmly established as a market leader in the car parking industry. Based on years of industry experience, MPS is renowned for our extensive and outstanding car parking services. Below are some of the services we provide.

MPS provides the latest ANPR technology for the management of your car park.

PAY BY PHONE CASHLESS PARKING SYSTEM: This system enables our customers to pay for parking by credit/debit card, mobile phone or landline, entering the location of the car park and the time they wish to purchase.

PAY & DISPLAY EQUIPMENT: Produce tickets, audit facilities and statistical data.

PAY ON FOOT: We offer a broad range of payment equipment which enables the customer to pay for parking 'on foot' whilst on site.

PAY ON ENTRY: The customer pays on entry/exit to a Patrol Officer in a kiosk. Payment is by cash or credit card.

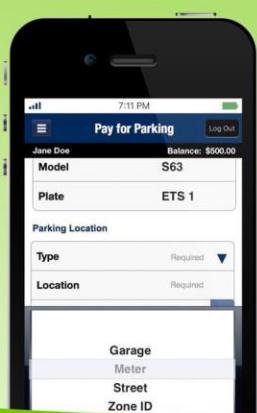

BARRIER CONTROLS: Either a ticket is dispensed or the driver inserts a credit card or Season Ticket, upon which the entrance barrier raises and allows access to the car park.

We offer many more services including
SELF ENFORCEMENT / VALIDATION CARDS AND VOUCHERS / SEASON TICKETS / CONTRACT AND PERMIT PARKING / SIGNAGE / CAR WASH AND VALET / FACILITIES MANAGEMENT

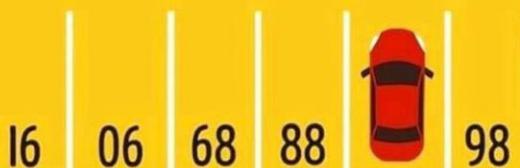

Improved service

- On street or off street parking we can improve your customer experience
- Finding spaces quickly and easily means less parking time meaning less stress and happier customers and the start of a happier experience in Harare.
- FYI - car parking is the first point of call for our customers
- Technology management will lower costs, manage payments, compliance and maximise use of available space
- We will improve your revenue from compliance and penalties.
- Cut stress and guide drivers throughout their parking experience

What is the number
of the parking spot?
